Not registered yet? **Register!**

Did you forget your password? **Reset it.**

A red arrow points from the 'Register!' link to the 'Sign in' button. The 'Register!' link is circled in red.

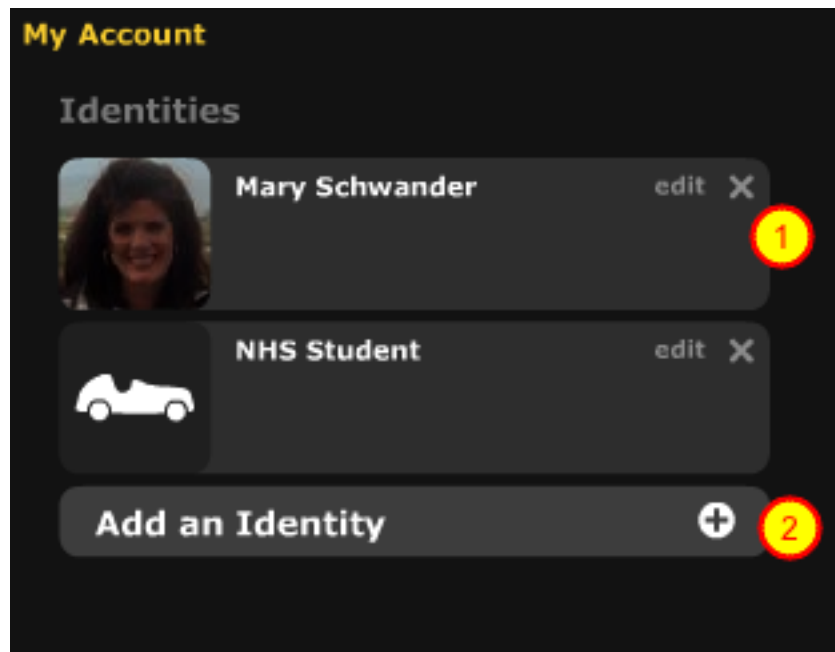

Click on **Sign-in** in the upper right-hand corner, and then **Register**.
Fill out the registration form to create an account.

Customizing Your Account

In the upper right-hand corner, select the drop-down menu next to the race car icon, and select **My Account**.

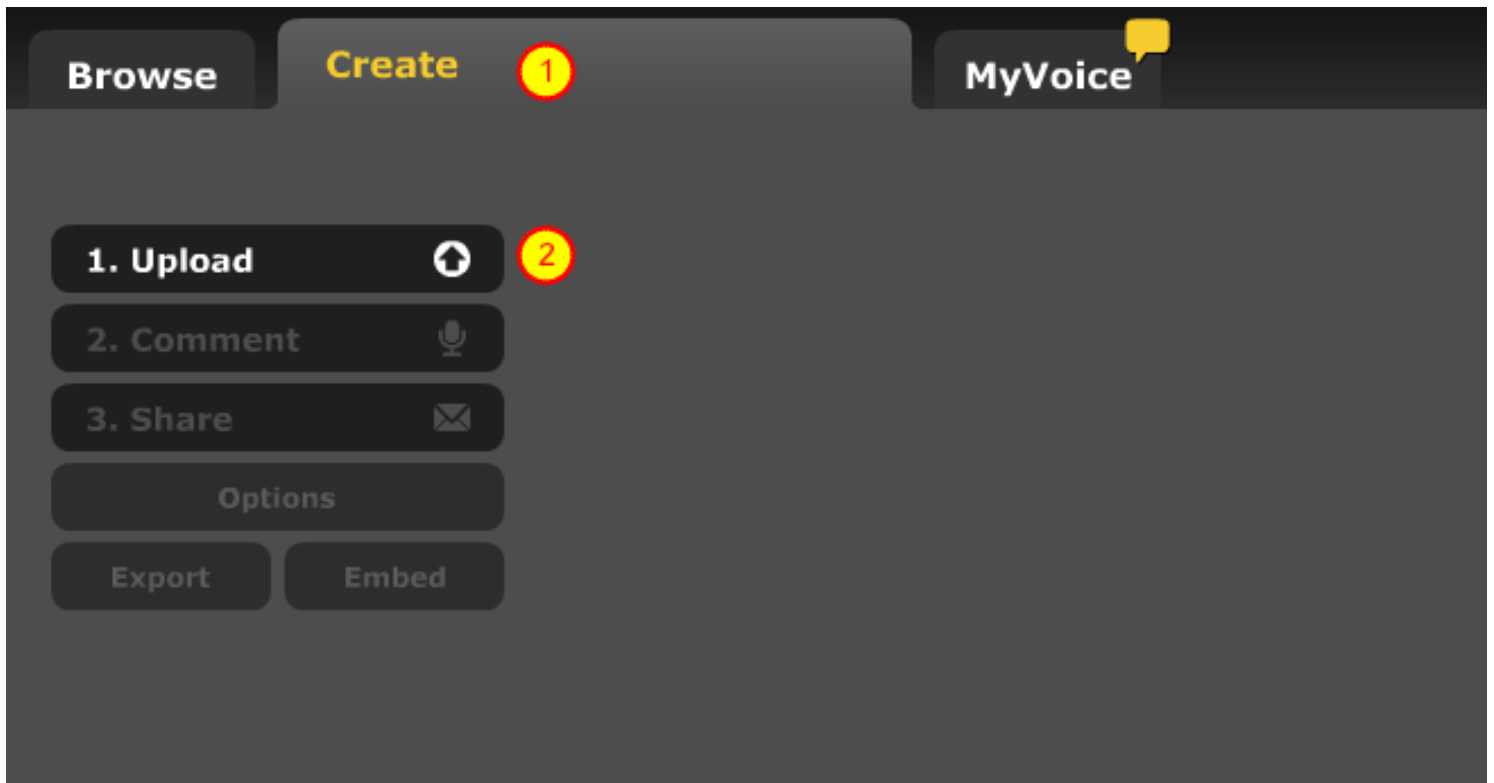

Create an icon

You can use your own, saved image as your account icon, or keep the default. Simply click on edit (1) and browse to your saved file.

You can also add additional identities to your account, so that your students can use VoiceThread without creating separate accounts (2). Note that you can always use the same icon and just choose different names.

Creating a VoiceThread

1. Click on the **Create** tab to create your own VoiceThread.
2. Click on **Upload** to upload multimedia content.

You can upload various formats of media from various locations. This includes documents (PDF is preferred) or images from other VoiceThreads you've created.

Managing Your Media

1. Give your VoiceThread a title and description by clicking on Edit Title. This is also where you would delete a VoiceThread that you no longer want.
2. You can sort your slides in any order by clicking and dragging.
3. Once you select a certain slide, you can rotate it, replace it with another media file, add a title and link, or delete it.

Adding Comments

Select a slide you want to add comments to and then click on **Comment**. (1)

A close-up of the slide will appear. Click on **comment (2)** below the slide to open your comment options.

Comment Options

You have five different formats in which you can comment:

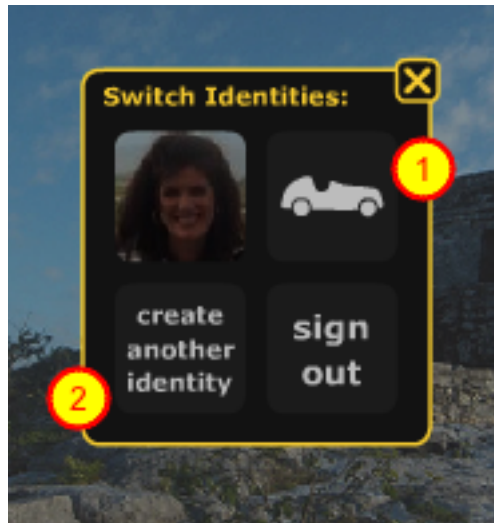

1. By phone (add your phone number and you will be called with a voice prompt)
2. WebCam
3. Microphone
4. Type in your text
5. Upload an audio file

Recording Comments

1. As you are adding your comments, you also have a Doodle palette available for adding annotations onto your slide.
2. Once you are done with your comment, you can save it or cancel it.
3. If you click on your icon image, you can switch to another identity, or create a new one (see next step)

Switching Identities

1. Use an identity already created
- OR...
2. Create another identity.

Export to an Archival VoiceThread for offline use

At the end of your VoiceThread, you are offered options for sharing your VoiceThread with others. You can copy and paste the URL, send an email or embed your video on your wiki or blog.

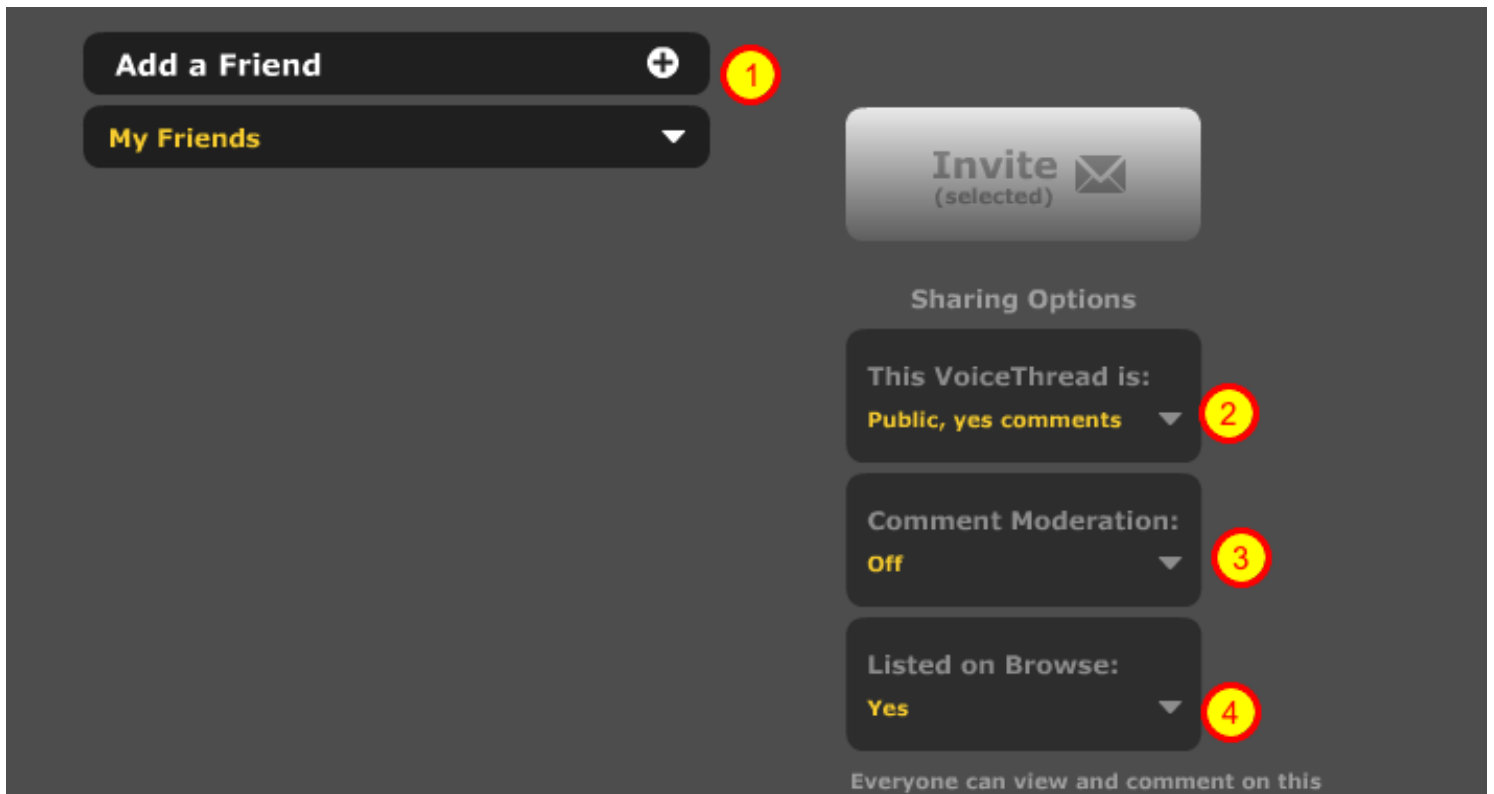

Making your VoiceThread Public

If you wish to make your VoiceThread Public so others can view it, you need to:

1. Click on the **MyVoice** tab
2. Click on **Menu**
3. Select **Share**

Making Your VoiceThread Public (cont)

1. You can invite "friends" who are in your contact list
2. You can make your VoiceThread public and either allow comments or not allow comments
3. You can choose to moderate comments before they are posted
4. You can choose whether your VoiceThread is listed in the Browse area for others to see
